Edison Projectoscope..

TONIGHT—HAZARD'S PAVILION

The Brooklyn, Indiana, New York, Massachusetts, Oregon and Texas seen run-
ning up New York Bay, followed by a host of yachts, tugs and river craft. The
firing of cannon, waving of flags and the cheering of an enthusiastic crowd make the
most thrilling scene ever shown on a screen. Also the realistic Cuban ambush.
The shooting captured insurgents, landing of Shafter's army, and forty other won-
derful and exciting scenes will be reproduced, as seen in actual life. Come and see this
wonderful exhibition, and you may be the lucky one to get the sweet toned Edison
phonograph, that will be given away tonight. Admission 50c; Children 25c.

The Seventh Will Never
See Manila.

Such is the Growing Impression
Among the Officers,

And the Men are Helping the
Idea Along.

They Prefer to Return Home and
Take Chances on Getting Their
Pay Rather Than Wait a Week
in San Francisco.

[BY DIRECT WIRE TO THE TIMES.]
SAN FRANCISCO, Sept. 29.—[Exclu-
sive Dispatch.] The men of the Seventh
California Regiment are now trying
to contain themselves in patience until
the result of their thousand applica-
tions for discharge is made known to
them. These must go through the hands
of the captains and be approved or dis-
approved by them. Col. Berry must
then place upon their indorsement, and
before they reach the department
commander each must be examined
and commented upon by Gen. Miller,
the division commander. The work thus
entailed is enormous. Besides examina-
tion and indorsement, favorable or
unfavorable, as the case may be, each
application must be briefed at every
one of the stopping places in the tor-
tuous military channel through which
it reaches the War Department.

No discharges will be given on ap-
plications not based on good reasons,
such as pressure of business or family
matters, or physical disability. Where
the reason alleged is merely that the
petitioner is tired of the service, he
will likely be given a chance to grow
a great deal more tired before he is
allowed to leave. If he should make any
reflection on the conduct of any officer
he will be given a hearing before a
court-martial, and may see the very
disagreeable side of military service.
According to Capt. Alfonso, the reg-
imental adjutant, company commanders
have already approved a majority of
applications.

In the present state of mind of the
men, they are easily made restive and
suspicious. This morning when they
were asked to vote on the question:
"If you are mustered out directly,
would you rather wait here to receive
your pay in about a week, or do you
prefer to get the money at the final
wind-up of the regiment's affairs at
Los Angeles?"

Almost unanimously they voted to
go without the money until the end,
fearing, as said one of the officers, that
they were being bounced into staying
in the service longer than might be
necessary.

After supper this evening the reg-
iment was greatly excited on hearing
of an officers' meeting—an unusual
thing at that hour. They quickly as-
sembled in the officers' street of the
camp to the number of 500 or 600, sus-
piciously watching the gathering of
their officers, in the belief that new
plans were being devised to keep them
from home. Howls and catcalls brought
out Maj. Prescott and Capt. Reynolds,
the officer of the day, who ordered them
to disperse, and to whom they paid
very little attention.

The opinion of many of the officers
of the Seventh and of others at head-
quarters is that no part of the reg-
iment will be sent to Manila, but that
the command as a whole will soon be
mustered out, according to the original
plan, which carries with it a month's
furlough and pay for the same period.
According to a dispatch received to-
night from Washington the War De-
partment has not decided definitely as
yet what disposition is to be made of
the regiment, notwithstanding the or-
der to send it to Manila. In the dis-
patch, Adj.-Gen. Coplin is quoted as
saying that the fate of the regiment
will not be determined for some days.
The inference may then be drawn that
the department will be guided in great
measure by the expression of the
wishes of the men as conveyed by the
number of applications for discharge
that are sent in.

A SERIOUS RUNAWAY.

Ed Ryan's Wife Meets With an Ac-
cident at the Race Track.

Mrs. Ed Ryan, wife of the well-known
horseman, met with a serious runaway
accident at the race track about 10
o'clock yesterday morning. She was in
a buggy watching her husband's
horses being exercised, when her horse
suddenly took fright and dashed off.
The buggy struck against a fence and
was overturned, while Mrs. Ryan's
dress caught in a hub of the vehicle.
She was dragged thus for a distance
of about 150 feet, before the horse could
be brought to a stop. She was promptly
removed to her residence, at the corner
of Wesley avenue and Jefferson
street. She suffered a dislocated shoulder
and some trifling bruises. Her
physician thinks she was not internally
injured.

YELLOW FEVER CASES.

The Marine Hospital Makes Up a
List of Them.

[ASSOCIATED PRESS NIGHT REPORT.]
WASHINGTON, Sept. 29.—The Ma-
rine Hospital service today prepared a
summary of all yellow-fever cases and
deaths up to date in this country so
far as reported to the authorities here.
It is as follows:

Louisiana—Baton Rouge, September
25, one case; Franklin, to September 24,
106 cases, five deaths; Harvey's Canal,
to September 24, six cases; Houma, to
September 22, one case; Houma, on
September 24, one death; Jefferson
Parish, September 20, five cases; New
Orleans, to September 28, twelve cases,
two deaths; Wilson, September 26,
twelve cases.

Mississippi—Edwards and vicinity,
September 27, one case; Jackson, to
September 27, nine cases, two deaths;
Orwood, to September 27, sixty-seven
cases, three deaths; Tray, to Sep-
tember 27, eighty-two cases, eight
deaths; Waterford, September 9, one
case; Watervally, September 28, one
death.

The percentage of mortality com-
pared with the number of cases, is said
to be low.

HAY'S SUCCESSOR.

HENRY ADAMS FAVORED BY THE
NEW SECRETARY.

If the President Shall Send Him to
the Court of St. James He Will
Be the Fourth to Occupy the
Post.

[BY DIRECT WIRE TO THE TIMES.]
WASHINGTON, Sept. 29.—[Exclu-
sive Dispatch.] If the President sends John
Hay's successor to London, Col.
Hay really wants Mr. Adams to have
the place, and if appointed he will be
the fourth of his family to occupy the
post. John Adams was his great grand-
father, John Quincy Adams was his
grandfather, and he is a son of Charles
Francis Adams, who was Minister to
England shortly after the war of the
rebellion. There would be no politics
in his appointment, for Henry Adams
never affiliated with any parties. He is
a traveler, a literary man, and dilettante,
who has money enough to main-
tain a handsome establishment in
Washington, another in Massachusetts,
and so exactly as he pleases.

However, it will not do to predict
concerning his appointment at present,
except that the Times correspondent is
willing to predict that it will not be
made for many weeks yet, not till the
war investigation is over, at least.
Then, if there is anything left of Al-
ger, probably Senator McMillan will go
to London, and Alger will get into the
Senate. If the investigation smashes
Alger, other arrangements will be
made.

TAKES THE OATH TODAY.

Col. Hay Expresses Satisfaction at
Getting Home.

WASHINGTON, Sept. 29.—Acting
Secretary Adee called upon Secretary
of State Hay at his residence today to
ascertain his wishes in regard to the
time when he should assume charge of
the Department of State. Mr. Hay
said he did not wish to enter upon his
duties today, but would take the oath
tomorrow.

Col. Hay expressed much satisfaction
at getting home after his extended ab-
sence abroad. On pending public ques-
tions, Col. Hay asked to be excused
from talking. He said that, not having
seen the President since arriving in the
country, he was hardly prepared to
speak except in a personal way of cur-
rent affairs, relating to the State De-
partment. On the evening of the 29th
of assuming charge of the department,
he did not desire to enter upon a dis-
cussion of the Philippine, Cuban or
other questions which would come be-
fore him officially. Col. Hay looks the
picture of vigorous good health after
his sea trip and New England outing.
During the day Mr. Hay paid his re-
spects to the President and remained
in conference with him for an hour.
When Mr. Hay left, it was announced
that he would take the oath of office
at the Executive Mansion just before
the Cabinet meeting tomorrow. The
oath will be administered by Justice
Harlan. Col. Hay will assume control
of his duties of Secretary of State Sat-
urday.

COLORADO'S FIRES.

Raging Through Heavy Timber—The
Situation is Critical.

[ASSOCIATED PRESS DAY REPORT.]
DENVER, Sept. 29.—The Times has
the following special day concerning
the progress of the forest fires:

"GUNNISON (Colo.) Sept. 29.—For-
est fires continue unabated in this
section. The two largest are on North
Beaver. They cover a territory about
thirty miles square. Miners have la-
bored night and day all the week cut-
ting timber in order to save the Kibler
mine, which is situated in heavy tim-
ber. That plant is now probably safe."
"CRESTED BUTTE (Colo.) Sept. 29.—
Owing to a change in the wind, this
town, for the first time in over a week,
is free from the smoke and heat that
have enveloped it. There has, how-
ever, been no rain, and the fire still
rages. Irwin, eight miles from here,
is almost surrounded, but as it is lo-
cated in a broad opening, it is consid-
ered safe. At Ruby, four miles from
Irwin, the situation is critical. The
immense breaker, which cost the Colo-
rado Fuel and Iron Company over
\$200,000, is situated in the thickest strip
of timber in this section. An extra
force of men was put on yesterday
to try to prevent the fire from getting
any nearer to it. It was within half a
mile of the breaker when men were
sent.

PANAMA CANAL

United States is Asked
to Buy It.

French Will Sell Their Interest
in the Scandal.

Cheapness of Work is the Bait
Employed.

The Monroe Doctrine an Obstacle
to France Going Ahead With
Construction—Scheme to Delay
the Nicaragua Enterprise.

[BY DIRECT WIRE TO THE TIMES.]
WASHINGTON, Sept. 29.—[Exclu-
sive Dispatch.] That notorious French
scheme, the Panama Canal project,
will be brought up in Washington im-
mediately after the opening of the next
session of Congress in December, and
this government will be asked to aban-
don the Nicaragua Canal for Panama.
Frenchmen who are interested in the
Panama Canal have been very active
since it became apparent that the
United States intended to shorten the
water distance between New York and
the Pacific Coast, and they are trying
to induce this government to take un-
der its fostering care the enterprise
started in Paris that developed into
the most gigantic swindle of the age.

Upon the surface of matters as they
now stand, there appears to be some
reasons why the government will at
least take under consideration the
proposition, which will be made by the
representatives of the Panama
Canal. It is claimed that the engi-
neers who have recently examined the
Panama work, state that there has been
effectively expended upon the construc-
tion \$12,000,000, to say nothing of the
millions stolen. This outlay still
counts toward the final construction
of the canal.

The engineers further claim that an-
other \$100,000,000 would complete the
Panama Canal, and that but eight
years would be consumed in the work.
They claim that the right-of-way holds
perfectly good, and that this govern-
ment can save considerable money by
assisting the construction of this
work to the exclusion of Nicaragua.

Just what scheme the Frenchmen
will propose has not been divulged to
Washington. It has been stated that
they would sell their entire interest to
the Panama scheme, leaving the United
States to complete the work, and own
it after it is completed. There are
reasons—such as the Monroe doctrine—
why France cannot go ahead with the
work, and there are excellent reasons
why the United States should not go
into partnership in the matter. Prob-
ably the sale will be proposed. If this
proposition results in nothing else, it
will give such opponents of the Ni-
caragua Canal as Senator Turpie a
chance for argument and delay.

Points of the News in Today's Times.

[THE BUDGET—This morning's fresh telegraphic budget, received since dark last
night, includes the principal Associated Press (or night) report, many exclusive Times
dispatches, making about 18 columns. In addition is a day report, not so voluminous
or fresh, of about 10 columns—the whole making a mass of wired news aggregating the
large volume of 28 columns. A large proportion of it relates to the recent war. A
summary of both telegraphic and local news follows:]

SAN FRANCISCO POLITICS.

Republican Municipal Ticket Com-
pleted Except for Supervisors.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, Sept. 29.—The Re-
publican nominating conventions to-
night completed the ticket with the
exception of supervisors. The platform
pledges the legislative committee to
vote for a new charter for this city.
The nominees are all pledged to strict
economy in the conduct of public af-
fairs, and a tax of \$1 on a valuation of
\$500,000 is declared to be sufficient.
Reforms in all departments of the mu-
nicipality are declared to be necessary,
and the nominees, if elected, are called
on to effect them.

The following nominations were
made: State Senator, Eighteenth Dis-
trict, John A. Hoey; Assembly, Thir-
ty-fifth District, A. Devoto; Thirty-
second, P. F. Sullivan; Thirty-third,
Robert McCullough; Thirty-seventh,
J. G. Boobar; Thirty-ninth, L. E. Jones;

SAN FRANCISCO, Sept. 29.—The fu-
sion convention of the People's party
met tonight and adopted a platform
demanding decreased taxation and in-
creased economy in government af-
fairs. Maguire was endorsed for Gov-
ernor, and James D. Phelan nominated
for Mayor. Several names for other of-
fices were presented, but no action will
be taken until next Tuesday evening.

[ASSOCIATED PRESS NIGHT REPORT.]

PEKING, Sept. 27, via Shanghai,
Sept. 29.—[By Atlantic Cable.] The
developments of palace affairs confirm
the belief that the Emperor, by the
radical reforms which he had de-
clared, prepared himself for the blow
struck by the Dowager Empress. The
successive edicts furnish a history of
the trend of affairs. The Emperor's
chief adviser, Kang Yuwei, obtained
unlimited influence over him and the
reforms. The official classes
opposed him, and consulted the Dow-
ager Empress, as to means for nulli-
fying these reforms.

The current story is that the imme-
diate cause of the Emperor's downfall
was that he appeared one day in Eu-
ropean clothes. The offense it ap-
pears was aggravated by the arrival
in China of the Marquis Ito, the Ja-
panese statesman, which alarmed the
palace officials, as foreshadowing Ja-
panese influence in the empire's coun-
cils. Thereupon, the Dowager Em-
press acted with wonderful promptness
and deposed her nephew before the
Peking people were aware she had
left the summer palace. Kang Yuwei,
foreseeing trouble, fled two days after
the crisis. His followers were arrested
today.

Hsuying-K'ouei, whose dismissal
from the Chinese Foreign Office was
announced by the British Minister, some
time ago, on the ground of bad faith,
has been reappointed. The announce-
ment of the Emperor's death is ex-
pected soon, and the Dowager Em-
press is likely to appoint a figurehead
as his successor, retaining the real
power herself.

One report says the Empress has
strong views regarding Russia's ag-
gression in Manchuria, and though
she is likely to restore Li Hung Chang
to power, she is not likely to coun-
teract his Russian leanings.

Maj.-Gen. Hawkins Promoted—Gen. Shafter Indisposed—Gov. Budd Appoints Officers—Notes from the Camps.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, Sept. 29.—Important results are likely to follow the extensive tour of inspection of the military camps just completed by Secretary Alger, especially in the matter of reorganizing the hospital service in the field. The Secretary conferred closely with commanding officers and medical officers at the camps, but especially with the fifteen colonels whom he met, looking to the improvement of their views upon the relative merits of the division hospital and the regimental hospital.

The defect of the division hospital, in the mind of the soldiers, is the separation of the soldiers of the same regiment, causing great discontent, low spirits and discouragement. The men will often go to great lengths to conceal real illness in order to escape being sent to the hospital. Against the regimental hospitals it is urged that the men cannot be properly taken care of with troops on the move, with no regular nurses, and with a lack of every sanitary and medical device that modern practice has come to regard as essential.

Secretary Alger has framed a project for the amalgamation of the hospitals, in such manner as to retain the most desirable features of both. His plan is to have the division hospital arranged in sections of tents lying in wings branching off from a central aisle. These can be very easily made by the use of a few flaps and a proper connection of the company tents. Then the sections are to be allotted to the different regiments in the division, each in care of one of the regimental doctors, yet receiving the attention of the high-class attendants and female nursing which is possible only in the big division hospitals.

In this way, the men would preserve the individuality of their commands and the idea may be carried out so far as to subdivide the sections into smaller sections, assigning one to each company in the regiment, and thus enabling the sick men to make sure of falling in with their mates when they go to the hospital. Secretary Alger believes that the soldiers will thus be reconciled to going to the division hospital, where they can secure the best of food and luxuries, lie alongside of their companions and receive the benefits of laundries, kitchens, etc.

BUDD APPOINTS OFFICERS.

[ASSOCIATED PRESS NIGHT REPORT.]
SAN FRANCISCO, Sept. 29.—Gov. Budd has appointed, First Lieutenant Herbert Chynski captain of Battery B, California Artillery, vice Capt. Hay, resigned; Second Lieutenant Frank Sprague has been advanced to the first Lieutenancy. Otto Richter, who was killed at Manila, as captain of Co. I, First California Volunteers.

The Governor is in receipt of the resignations of First Lieutenant Thomas F. Barry of Battery A, and of Second Lieutenant McKenzie of Battery D, California Heavy Artillery.

DESERVED PROMOTION.

[ASSOCIATED PRESS NIGHT REPORT.]
WASHINGTON, Sept. 29.—Maj.-Gen. Hamilton S. Hawkins, U.S.V., who commanded the division which captured San Juan Hill in the second day's fighting at San Juan, has been appointed a brigadier-general in the regular army, to fill the vacancy caused by the retirement of Gen. William Graham. Immediately after receiving his commission, he will be placed on the retired list on his own application under the thirty-years-service clause, and this will enable the President to sign advance orders for promotion to the grade of brigadier-general in the regular army.

GEN. SHAFTER FEVERISH.

[ASSOCIATED PRESS NIGHT REPORT.]
NEW YORK, Sept. 29.—Gen. Shafter is still indisposed at Camp Wikoff today, and did not leave his headquarters at the clubhouse. He has malarial fever, and has had several chills, but no serious results are looked for. He is expected by Col. McClellan, the adjutant, Gen. Shafter expects to resume active work in a day or two.

The Twenty-Fifth Infantry, 700 men, in command of Maj. Long, departed today by rail to Long Island City. They are going to fight in Colorado, Arizona and New Mexico to relieve the Fifteenth Infantry, which is to be garrisoned in Cuba.

VOLUNTEER VIM.

Splendid Words from the Head of the Army.

[ASSOCIATED PRESS DAY REPORT.]
CHICAGO, Sept. 29.—The Daily News' Washington special says that Gen. Miles, at a reception given at his home last night, to his comrades of the Medal of Honor Legion, denounced as false the claim that volunteer officers are any less brave than regular officers. He said that the volunteers themselves were responsible for the sickness in the camps.

"The volunteer troops of the United States in the war with Spain," he said, "were as brave and as patriotic a body of soldiers as ever took the field in any campaign the world has ever seen. The battles they fought were won as gallantly as any recorded in history. And yet the peril which our soldiers had most cause to dread was not bullets, but disease, which swept over our camps and destroyed hundreds where bullets killed one. Our soldiers entered into the fever-stricken camps as they went up the hill in the face of the enemy, with a courage and devotion that must open to them the glorious pages of history."

"Those who say that these men sickened and died because they wished to; those who blame the soldiers and officers for the death that devastated the camps and thinned the ranks; those who assert that our soldiers suffered through their own fault, inasmuch as a quarter of a million of the bravest men that ever carried arms. These men did not suffer and die because they liked it, and whoever says they did insults our army and the men who offered it. It is an affront to reason. I have nothing to say of the

blame for the death of those brave men."

CLASSIFYING "KICKS."

War Investigators Hear from Even Honolulu.

[ASSOCIATED PRESS DAY REPORT.]

WASHINGTON, Sept. 29.—The War Investigating Commission confined itself largely today to the examination and classification of complaints which have been made to the President. A large number of such complaints have been received at the White House. They come generally in the form of letters, and are for the most part from relatives of enlisted men. Those examined at this session deal in the main with Camp Wikoff and Camp Thomas, but some of the letters also make charges concerning other camps. They relate especially to the food served to soldiers and to hospital accommodations, and none of them were of a very striking character.

One lady, whose son is stationed at Honolulu, wrote that he was encamped on a cattle hill; said his food was insufficient to meet his demands. She asked the President to see that he had better care.

Circular letters were sent to the writers of all the complaints, asking them to make their charges specific, and to state whether they spoke from personal knowledge, or only from report.

One of the letters read today was from Dr. Sims of Chattanooga. It was written to a friend in Ohio in response to an inquiry for the facts in regard to Camp Thomas, and was forwarded by the person that had received it to the President. Dr. Sims said in this letter that there was no justification for the charge that the site of the camp was not desirable. It was, he said, admirable. The doctor said that in the beginning of the camp's career the hospital facilities were limited, but that these had been increased until they were able to meet the demands upon them.

The commission expects to begin to take testimony next week. Gen. Wheeler is expected to be among the first witnesses called. The examination of complaints to the President was continued at the afternoon session. A decision was reached at this session to include in the work an investigation into the conduct of the War Department in the Pacific as well as in the Atlantic region, and to this end letters were written to Gen. Merriam, in command of the Department of the Pacific; to Gen. Otis, in command of the Philippines, and to Gen. Merritt, who occupied this latter position until recently. The letter to Gen. Merritt is as follows:

"We have the honor to request you to furnish us, as early as possible, with such information as you have, as to the adequacy or inadequacy of the quartermaster and commissary and medical supplies and medical staff for troops under your command while in this country, while en route, and while you were in command at

RESPECT TO BAYARD.

Dedham Goes into Mourning—Messages of Sympathy.

[A. P. EARLY MORNING REPORT.]

DEDHAM (Mass.), Sept. 29.—The town has gone into mourning out of respect for the late Thomas F. Bayard, the flags on the Town Hall and the Courthouse being placed at half mast. Already many messages of condolence have come to the family from all parts of the country. During Mr. Bayard's illness many messages of sympathy were received from all parts of the United States and from foreign countries. On September 9, Queen Victoria cabled her expressions of sympathy to the health of Mr. Bayard, with a hope for his recovery. Others came from Ex-President Cleveland and associates in public life at Washington, and abroad.

THE PRESIDENT'S CONDOLENCES.

[ASSOCIATED PRESS DAY REPORT.]
WASHINGTON, Sept. 29.—President McKinley sent the following telegram to the widow of ex-Secretary of State Bayard today:

"EXECUTIVE MANSION."

"Washington, Sept. 29, 1898.
"To Mrs. Thomas F. Bayard, Wilmington, Del.: With sincere sorrow I learn of the death of your husband, and beg to express to you my heartfelt sympathy. Mr. Bayard's high attainments and sterling qualities endeared him to all who knew him, while his distinguished services to his country add his name to the roll of illustrious Americans."
(Signed) "WILLIAM MCKINLEY."

BURIED IN DELAWARE.

[ASSOCIATED PRESS NIGHT REPORT.]
DEDHAM (Mass.), Sept. 29.—The remains of the late Thomas F. Bayard have been embalmed and tomorrow they will be taken to Boston and thence to Wilmington, Del. The family has sent out a large number of programs, including one to former President Cleveland, requesting him to act as one of the pallbearers.

Since the death of the former Ambassador yesterday, hundreds of messages have been received, offering condolence to the widow and other relatives. Among the senders are Queen Victoria, Sir Henry Irving, Lady Churchill, President McKinley, Chief Justice Fuller, former Secretary of War Lamont, Senators Faulkner and Hoar, Perry Belmont, former Minister Phelps, Lords White, Carter and Caskill, the Mayors of Burnley and Lambert, Eng., and the president and members of the Literary and Dramatic Club of Birmingham, Eng.

FOUL PLAY FEARED.

Henry Gray of Duluth is Missing.

Last Seen at Cleveland.

[ASSOCIATED PRESS DAY REPORT.]

CLEVELAND (O.), Sept. 29.—The police of this city are looking for Henry Gray, superintendent of the Duluth (Minn.) Rolling Mills, who is reported missing. He came to Cleveland from Duluth a week ago and stopped at the Wadsworth House. He intended going to New York Monday night last. He purchased his ticket and placed it in his pocket, and was in the office at the Wadsworth House. The train departed, but Mr. Gray did not appear, and nothing has been seen or heard of him since. He had considerable money, and foul play is feared. Several messages have been received from New York concerning the welfare of Mr. Gray, who has business interests in New York, where his family resides.

Ruin Almost Incredible.

NEW YORK, Sept. 29.—The steamer Praxtelia, Capt. McKee, which arrived this afternoon from the West Indies, reports the hurricane at Barbados as the most destructive. From 10,000 to 15,000 houses and buildings were destroyed; up to 100,000 people were killed. At St. Kitts the storm raged on the night of the 18th from 10 p.m. to 1 a.m. on the 19th, the wind blowing at the rate of sixty miles an hour. Fortunately the town escaped with slight damage.

GOOD ENOUGH TO TAKE.

The finest quality of loaf sugar is used in the manufacture of Chamberlain's Cough Remedy, and the roots of the plant are of a quality very similar to that of maple syrup, making it very pleasant to take. As a medicine for the cure of coughs, colds, la grippe, croup and whooping cough, it is unequalled by any other. It always cures and cures quickly.—Adv.

SPARKS FROM THE WIRES

Day Dispatches Condensed.

A dispatch was received at Chicago from New York yesterday stating that two-thirds of the stock of the Illinois Steel and Minnesota Iron Companies had been deposited at the Federal Steel Company's office. This shows that the consolidation is assured. Judge Sloan of the United States Circuit Court heard arguments yesterday favoring the appointment of a receiver for the Whitehall Fuel Company and the Iowa and Illinois Coal Company, against which corporations proceedings to foreclose two trust deeds were pending. The Atlantic Trust Company of New York, Judge Shawler will decide the matter to-morrow. One of the questions is whether him to satisfy himself of the court's jurisdiction.

A dispatch from Jackson, Miss., says no cases of yellow fever have developed in Jackson since the one reported Wednesday night. Dr. Gant reports from Taylor's Station, near New Orleans, that a case of yellow fever has been reported. Dr. Gant has been ordered by the State Board to take charge at Water Alley as State Health Officer. Dr. Miller, health officer of Jefferson county, reports the following: Fever at Harrison very suspicious. Three new cases developed yesterday. Would advise an expert. Dr. Dunn, now at Winona, has been ordered to go to Harrison and investigate. One new case reported at Edwards.

Night Dispatches Condensed.

A Yokohama dispatch says a new premier, named Saito, has been appointed in Korea. The steamer Collage City arrived at Victoria from Alaska last night with 200 passengers and 700 cases of salmon.

Two severe earthquake shocks were felt yesterday at Fortuna, sixteen miles from Murcia, capital of the province of that name. M. J. Gill, a disbarred St. Louis, was yesterday afternoon nominated for Congress by the Tenth District Democratic Convention. A Rice Lake (Wis.) dispatch says forest fires are doing damage to the timber. Sixteen farmhouses are reported to have been burned yesterday.

At the election of officers of the Order of the Eastern Star at Washington, Mrs. Elected for Conklin of Pineville, Or., was elected. The Daily London Mail from Cape Town says Gen. Kitchener has cabled to Cecil Rhodes that he has established a post south of Fashoda, and asks: "When are you coming up?"

Voting in Nova Scotia on the Dominion prohibition has been light, showed a marked public indifference. The majority in Nova Scotia province for prohibition, with the return not quite certain, is 2,255.

The Official Gazette of Havana publishes today a decree signed by Blanco and bearing date of September 27, granting amnesty and ordering the release of all political prisoners now undergoing confinement in the island.

A Port Townsend (Wash.) dispatch says the bark Hayden Brown, fifteen days from St. Michael, arrived last night, bringing seventy passengers. All confirmed reports of no gold being found on Kotzebue Sound.

At Fresno the jury in the case of George McCrany, charged with the murder of George Cline on the west side, last June, returned a verdict of guilty of murder in the second degree and recommended him to the mercy of the judge.

At Seattle it is estimated that the total crop of Washington this season will be between 27,000 and 30,000 bales. Picking will be finished this week. A considerable portion of the crop has already been contracted for on a basis of 10 and 12 cents a pound.

At Oakland yesterday the coroner's jury in the case of the fatal explosion which killed a man in the Tesla coil mine, returned a verdict of accidental death. Gammari was in charge of a coal car and was caught between his car and a timber.

The rebels have attacked government offices at San Juan, P.R., and destroyed a building in which they were located. They fled, however, on the approach of the troops, and the latter on October 1, and to withdraw all cut rates in force at present on Friday, September 30. This does away with the \$5 rate to New York announced by the Erie Railroad, and with the \$10 round-trip tickets that have been on sale for some weeks past.

The Mazama All Right.
SAN FRANCISCO, Sept. 29.—The new steamer Mazama had her trial trip on the bay today, and proved herself to be a fast and comfortable boat. She was built for the Intercontinental Steamship Company, and Capt. Godfrey, superintendent of the company, is here to take her to Honolulu. The Mazama will be built by Hill Brothers at San Francisco, and her engines were put in by the Fulton Engineering and Shipbuilding Works of San Francisco.

Mohican's Boilers Condemned.
SAN FRANCISCO, Sept. 29.—The boilers of the Mohican have been condemned by a board of survey at Port Blaney, and the vessel finally ordered out of commission. Her crew will probably be sent to the Asiatic station.

Fanny Davenport's Funeral.
BOSTON, Sept. 29.—The funeral services over Fanny Davenport were held at Trinity Church here today. Interment was at Forest Hill Cemetery. Joseph Jefferson was one of the honorary pallbearers.

THE MAN WHO HOLDS HIS TONGUE.

The man who is ready to give his all for what he thinks is right. Who should be his guide and answers the call. When his country has battles to fight, is a hero, and merits a hero's reward. His praise should be earnestly sung. But another who shines in the sight of the Lord. Is the man who can hold his tongue.

The man with the silver voice who can win for the cause that is just in debate, And the man who sees danger, yet bravely goes in. While others in agony wait, Are men who invoke the world's wonder and awe. Their praises are earnestly sung; But the bravest of mortals that I ever saw. Was a man who could hold his tongue.

Weave chaplets for those who have won in the fray— Who have struck that the slave may be free; For the men who brush old superstitions away. And for those who are heroes at sea; But there is another who merits a place Among people whose praises are sung— The heart-bruised man with a smile on his face. Who can suffer and hold his tongue.

nadian commissioners in a very emphatic manner not to make too great concessions to the Americans in the settlement of the various questions. He says the Canadians should not surrender the British national right to the seal fisheries in the Bering Sea. It has been rumored that the American government would purchase the ships which the Canadian fishers have in the Bering Sea now own, and all British rights to Bering Sea would be given up in return for the greater of certain United States territory, which would enable the Canadians to have freer access to the Yukon River and the interior of Alaska.

MOORE'S DOUBT.

A Benedict Said to Resemble the Absconded Teller.
[ASSOCIATED PRESS NIGHT REPORT.]

BOSTON, Sept. 29.—In answer to a query from Marietta, O., Police Inspector Walsh has sent word that Frederick T. Moore is still sought by the police of Boston. The reward of \$5000 offered some months ago by the National Bank of Commerce for the capture of its former assistant teller, who absconded with about \$30,000, has never been recalled.

As far as can be learned the telegram from Marietta was prompted by the suspicion that a man giving the name of Henry Capers of New York and New Orleans, who was married there to a Philadelphia girl, a day or two ago, may be Moore.

The Judge who issued the marriage license was shown a photograph of Moore, and was struck by its similarity to the man to whom the license had been granted. Then it is said the writing of Capers on the marriage record and a specimen of Moore's writing were compared, and the similarity was also noted. It was also said that Capers was seen to count a roll of money containing \$5000.

HALF TOWN BURNED.

Five Children Perished in Flames at Cumberland, Wis.

[ASSOCIATED PRESS NIGHT REPORT.]
MILWAUKEE, Sept. 29.—A special to the Sentinel from Cumberland, Wis., says a fire supposed to be of incendiary origin from forest fires, burned half of the town today, causing a property loss estimated at \$225,000. About twenty-five families are homeless. Five children are reported burned to death. A large sawmill is among the buildings burned, throwing many out of work. Rain saved the entire city from being burned.

Mrs. Jacob Corson was burned to death while fighting forest fires today at Chippewa Falls. Her two children, while attempting to save her, were badly burned about the face and head. Passengers on the Wisconsin Central train from the north tonight say the train passed through an almost continuous sea of fire.

Rate War Ended.

BUFFALO (N. Y.), Sept. 29.—Word was received in several local ticket offices late yesterday that an agreement had been entered into by the presidents of the various New York State railroads to raise rates for freight, beginning on October 1, and to withdraw all cut rates in force at present on Friday, September 30.

ALL-ROUND SMASH.

MIRACULOUS TIMES AT LOUISVILLE TRACK YESTERDAY.

Directly Wins the Two-Year Pace from the Favorite in Unequaled Time.

BUMPS BUMPS INTO BOGASH.

FRED KEYS AND DICK WATSON RECEIVE INJURIES.

Woman is Deprived of a Race at Newmarket—Mayne M. M. Takes a Fall—Gentry Defeats Patchen—Baseball.

[ASSOCIATED PRESS NIGHT REPORT.] LOUISVILLE, Sept. 29.—The chief event of the meet today, the 2:05 pace, was the occasion of excellent sport, a bad smash-up and some broken records, which include the fastest paced heat of the year. The race was won by Directly in straight heats, Bumps, a strong favorite, being clearly beaten. Anacanda, the second choice, could give the black horse but little trouble. Bumps opened at 2 to 5, while 4 to 1 could be had against Directly. The third heat saw the accident, and the fastest time of the year.

As the horses were coming into the stretch, Bumps' sulky ran against that of Frank Bogash, and was overturned. Planet and Ananias ran into it. They were also overturned. Fred Keys, the driver of Ananias, had his foot wrenched, while Dick Watson, who handled Bumps, besides a dislocated shoulder, suffered severe internal injuries. He was removed to a hospital. Directly won the heat easily from Anacanda, the time being 2:03 1/2, the track record and the fastest heat paced this year in a race, with the exception of the match between Patchen and Chetah.

The Kentucky Matron Stakes was won by Mary Celeste in straight heats, while Berenice, at 4 to 1, had no trouble in taking three straight heats in the 2:16 pace. Her time for the first heat, 2:08 1/2, is the best of the year for two-year-old pacers. Results: Jockey Matron Stakes, \$2000, two-year-olds, trotting: Mary Celeste won; best time 2:17 1/2. Risky, Handspring, Carrie Simmons, Beralma and Crystal-line also started.

Pacing, 2:05, purse \$1200: Directly won in straight heats; time 2:04 1/2, 2:08 1/2, 2:03 1/2. Chetah, Planet, Frank Bogash, Bumps, Ananias and Planet also started.

Pacing, 2:16 class, purse \$800: Berenice won in straight heats; best time 2:08 1/2. Jim Kennedy, Maud Empress, Hopeless, Peaches, Fanny Putnam, Edgar Ross, Maximilian, Walnut, The Maid and Tom Sheridan also started.

[ASSOCIATED PRESS NIGHT REPORT.] BALTIMORE, Sept. 29.—Score: Baltimore, 13; base hits, 8; errors, 1. Brooklyn, 1; base hits, 8; errors, 1. Batteries—Mull and Robinson; McKenna, Ryan and Smith.

CINCINNATI-CLEVELAND.

[ASSOCIATED PRESS NIGHT REPORT.] ST. LOUIS, Sept. 29.—Score: Cincinnati, 2; base hits, 6; errors, 4. Cleveland, 7; base hits, 10; errors, 2. Batteries—Hill, Dammann and Wood; Young and Criger.

CHICAGO-LOUISVILLE.

[ASSOCIATED PRESS NIGHT REPORT.] LOUISVILLE, Sept. 29.—Score: Chicago, 10; base hits, 10; errors, 3. Louisville, 2; base hits, 7; errors, 6. Batteries—J. Taylor and Nichols; Dowling and Kittredge.

IT WAS A RACE.

Gentry Defeats Patchen Before Sixty Thousand People.

[ASSOCIATED PRESS NIGHT REPORT.] SPRINGFIELD (Ill.), Sept. 29.—At the State fair today, in the presence of a crowd of 60,000, John R. Gentry defeated Joe Patchen with ease, in the match race for a purse of \$5000. Patchen was the favorite with the immense crowd that filled the big amphitheater and bleachers and lined the track for several hundred yards on each side, but the horse was not in the best of condition and was never in the race. Gentry was driven by Marks and Patchen by Anderson.

The first heat was won in 2:04 1/2 and the second in 2:03 1/2, and Starter Newton immediately announced that it was the fastest race of the year, and also that it was the best consecutive heats ever done by Star Pointer, Joe Patchen or Robert J.

OBJECTION TO BORING

Causes Sloan to Lose a Well-Merited Race.

[ASSOCIATED PRESS NIGHT REPORT.] LONDON, Sept. 29.—[By Atlantic Cable.] At the third day's racing of the first October meeting at Newmarket today the three-year-old filly Manderia, finished first in a welter handicap, a neck ahead of the four-year-old chest-nut colt Kirschwasser, ridden by Tod Sloan. An objection, however, was lodged against Manderia for boring. This was sustained, and the race was awarded to Kirschwasser. Sloan won a selling stake on the bay colt Cranes Bill. The betting was 5 to 1 on Sloan's mount.

The Jockey Club stakes of 10,000 sovereigns was won by C. D. Rose's three-year-old chestnut colt Cyrene. St. Cloud III, ridden by Sloan, was not placed. Nine horses ran. The October stakes were captured by Sloan on the Lorrillard-Beresford stakes' three-year-old chestnut filly Dyakka. The betting on Dyakka was even money.

JOCKEY CLUB RACES.

Fast Tract and Perfect Weather at Sacramento.

TWO "FELL DOWN."

Thompson and McEachren Ride in the League Races.

[ASSOCIATED PRESS NIGHT REPORT.] PHILADELPHIA, Sept. 29.—All but two of the professional bicyclists who have formed the National Racing Cyclists' Union, and refused to ride on any track under L.A.W. auspices, remained true to their promise today, and took no part in the national circuit meet at Woodside Park. The two who signed the agreement to boycott the L.A.W., but who were in today's races, were Bobby Thompson and Archie McEachren of Toronto. The attendance was very small, but the events were pulled off.

One-third of a mile, championship, professional: Tom Butler, Boston, won; Bobby Thompson, Toronto, second; Robert Walthour, Atlanta, third. Time 0:23 1/2.

Five-mile championship, professional: Watson Colman, Boston, won; Fred Titus, New York, second; Nat Butler, Boston, third. Time 10:42.

FOULED IN THE ELEVENTH.

Tracy-Muller Glove Contest at Sacramento a Draw.

[ASSOCIATED PRESS NIGHT REPORT.] SACRAMENTO, Sept. 29.—There was an excellent attendance at the Athletic Club at the Old Pavilion tonight to witness the twenty-round glove contest between Tom Tracy and Fred Muller. There were two preliminary contests between members of the Athletic Club, that were much better than the average of preliminary bouts. The first was between Denny and Harley and the second between Swallenberg and Hellman. The third was between "Kid" McFadden, the bantam champion of the Pacific Coast, and Ed Wiley, and was a fine exhibition.

Then came the main event. Muller was seconded by his brother, Ryan, and Tracy by "Kid" McFadden, and McFadden, William Johnston of the Athletic Club acted as referee. The announcement that the fight was a draw was made by the referee.

First round—The men were very evenly matched on height and weight, although Tracy looked a trifle heavier about the shoulders. Muller led short and Tracy got in the first blow on the breast. Muller returning, but falling short. There was a clinch and Tracy exchanged blows. Muller getting in on Tracy's neck. Tracy struck Muller in the stomach twice in the next clinch, and there were cries of "foul."

Round two—Both sparred cautiously, feeling each other. Tracy got in on the neck and body, and they mixed. Muller putting in a right on Tracy's side and again on the body. More sparring and Tracy landed twice lightly on the neck. Muller landed a heavy left on the neck, staggering Tracy, and followed it up with one on the face. Muller's round.

Third round—Tracy landed on the face, Muller countering with his left. Tracy landed twice on the body, and they sparred a while. Counters on the neck, and Muller put a hot one on Tracy's throat. Tracy returned on the body and head, and Muller put one over the heart. Tracy landed on the body, and they clinched, and Muller landed a hot one on Tracy's left eye and another on the jaw. Tracy coming back on the body. The round was about even.

Fourth round—Muller put one on the head and another on the breast. Tracy landed twice on the body, and Muller countered on the side and Tracy a right on the neck, and again on the neck and body lightly. Muller put two hot ones in succession on the mouth. Tracy slipped down. Muller landed on the neck and face. This was Muller's round.

Fifth round—Tracy was the quicker and shifter of the two, but Muller landed on the body, and ducked out of the way of an upper cut. Light sparring, and Muller landed a heavy left on the neck and another on the face. Tracy put one on the face and Muller retaliated on the throat twice. Tracy ducked a nasty right-hand swing and slipped down again. This was Muller's round.

Sixth round—Tracy led on the stomach and face and they clinched. Muller put in on Tracy's left eye, which was puffing. Muller put a right on the mark and a heavy left on the mouth, repeating it, while Tracy landed on the stomach. Muller visited the bad eye twice, and they exchanged blows. Tracy put one on the body, and Muller countered with the left on the head, and Muller had a little the best of the round. He did not show a mark, while Tracy's skin was flushed.

Seventh round—They sparred a while and after leading, clinched. Muller put one on the neck and Tracy countered on the body. Muller put a hot one on Tracy's neck and another on the neck and repeating. Tracy put his right hard on the mouth and they mixed matters. Muller having the best of it. Muller put one on the head, and Tracy countered. They clinched, and Tracy struck Muller. Cries of "foul." Tracy put one on the head and another on the body and rushed Muller to the ropes, wrestling him down. Tracy put one on the neck and was countered. Muller put in three in succession on the neck. Tracy had the best of this round.

Eighth round—Both sparred for an opening. Muller landed on the body and on the face and again on the eye. Muller landed on the jaw and body hard, and put in another hot one on the jaw. Tracy returned them on the mouth twice. This was Muller's round. Tracy's eye began to swell.

Ninth round—Muller led short, but landed twice on the body and again on the neck. Tracy slipping down. Muller got in on the neck and another on the throat. Tracy put in a right swing on the ear, drawing first blood, and repeated it. Muller retaliating on the mouth and neck and mouth again. Tenth round—Muller put a light one on ear, which was returned with in-

terest on neck and face and on ear. Muller's nose was bleeding, but he put a left on the mouth. Tracy had slightly the best of the round.

Eleventh round—Tracy led on face and body, Muller returning on neck. They mixed things and clinched. Tracy struck in the clinch and Muller returned it. They commenced slugging, still clinched, and refused to separate, and Referee Johnston stopped them and sent Muller to his corner. He returned and tried to get to Tracy, but Chief of Police Dwyer interfered and would not allow them to resume.

The referee gave no decision, but after the men had gone to their rooms, decided it a draw on the ground that both men had fouled and refused to obey the rules.

"ROUGH RIDER" DAY.

Successful Peace Jubilee at Albuquerque—Ball and Race.

[BY DIRECT WIRE TO THE TIMES.] ALBUQUERQUE (N. M.), Sept. 29.—[Exclusive Dispatch.] The Peace Jubilee celebrated here today in honor of the Rough Riders was a great success in every way. The trades parade this morning was the finest ever witnessed in the Territory. A splendid programme of speeches and music was carried out at the city park in the presence of thousands of people. There were hundreds of visitors from Arizona and New Mexico and a large number of distinguished guests.

Gov. M. A. Otero, Hon. R. E. Twitchell of Las Vegas and Hon. Neill B. Field of this city were the principal speakers. This afternoon was the big day at the Territorial fair, and there was an attendance of over five thousand people.

Raymond M. and Ophelia paced four one-mile heats, the former winning three and the latter one; best time 2:20.

Albuquerque defeated Leadville in the third game of the baseball series by a score of 7 to 3.

People and Property Imperiled in Chippewa Falls Vicinity.

[ASSOCIATED PRESS DAY REPORT.] MILWAUKEE, Sept. 29.—A Journal special from Chippewa Falls, Wis., says:

"Forest fires are raging to an alarming extent in this section. Hundreds of farmers are working night and day, fighting the flames. Four homes and other buildings have been destroyed, and many persons seriously burned. Only a heavy rain will prevent a serious loss."

"The Wisconsin Central passenger train, due here at 8:50 o'clock last evening, passed through almost a sea of fire between Boyd and Cadott. Passengers on the train say that the flames were raging fiercely on both sides of the track, and threatening every building within sight."

CANDIA (Crete), Sept. 29.—[By Indian Cable.] Edhem Pasha, the Turkish Governor, who is chiefly blamed for the recent rioting here, has been deprived of governorship and started for Smyrna today. The delays and subterfuges in complying with the orders of Admiral Noel, the British commander-in-chief, the Turkish authorities, however, are protesting that the disarmament has been completed. The British officers propose to search suspected houses for arms. They have discovered that many of the men surrendered to Admiral Noel, as ringleaders of the rioting, are innocent, while the guilty are still at liberty. A detachment of 300 British blue-jackets was paraded through the town today.

NORTH MAIN ALSO.

PLAN TO HAVE THAT STREET FULLY IMPROVED.

Resurfacing Like That of Spring Street Proposed for Fifty New Fire-alarm Boxes.

A JURISDICTIONAL POINT.

POWER OF SUPERVISORS UNDER THE DISINCORPORATION ACTS.

Plaintiffs in the Emery Case Not Satisfied on Two Out of Three of the Counts—How Tried for Grand Larceny.

A proposition to resurface North Main street in the same manner as the recent work on South Main and Spring streets was done has been made to the merchants along the street by some of the best known citizens of the city. It is proposed to begin the work either at First or Temple street and continue the present improvement to the Plaza.

If the plans are successful there will be a resurfacing of the street between Ninth and Marchessault street on both Main and Spring streets.

In order to provide additional improvements to the fire department other than the erection of an equipment of a number of new fire-alarm boxes, at least fifty new fire-alarm boxes are to be purchased with the money secured by the recent sale of bonds. These are to be distributed throughout the city where they are most needed.

The collections of licenses for oil wells during the past three months have been greater than for any similar period since the collections began. The next quarter will show a great reduction, however, as the City Council has recently reduced the oil license to \$1 per quarter instead of that much a month.

The Long Beach and San Pedro Electrical Companies, in applying for a writ of mandamus to compel the Board of Supervisors to pay an indebtedness incurred by the city of Long Beach before it is incorporated, have raised the question of the power inhering in the board and this rather cleverly. It is contended that while acting under the terms of the act, the board is not a body of trustees, but a body of officers, and that the decisions of the board are final, they are not when the board is acting under the Disincorporation Acts, and that creditors, under a reasonable construction of these acts, have their day in court.

Alfred Bradley is brought to trial on the charge of shooting Gov. Smith at the Soldiers' Home. It is extremely likely that the question of the jurisdiction of the court will be raised, charge preferred against the defendant, whether assault with intent to commit murder or under the most adverse construction of the act, it is contended that the Federal courts only would have jurisdiction to try Bradley for whatever phase of crime might be charged against him. It may easily be conceived how, under existing circumstances, attorneys on both sides of the government, and both the one side for trial by the State and the other for trial by the Federal courts. Such a question would almost certainly be raised in the Supreme Court of the United States, and that would mean a prolonged delay of two or three years.

WANT A GOOD STREET.

PLAN TO RESURFACE ALL OF NORTH MAIN STREET.

Business Men Desire an Equal Chance With Those South of Them—Fifty New Fire-alarm Boxes to Be Ordered—Oil Collections.

If a movement which has been started by the most prominent business men of the city is successful, North Main street will soon be repaved from either First or Temple streets to the Plaza. The improvement will start where the work of the present resurfacing of Main or Spring streets, between Temple and Ninth, was assured, and before the work had begun. No action was taken at the time, however, and the matter was dropped.

Now that the remaining portion of Main street has been resurfaced and the condition of Spring street through-out is such as is certain to attract business to that street, the merchants doing business along North Main street, or some of them, feel that if their portion of the street can be placed in the same excellent condition as the other streets mentioned, they will derive a direct benefit therefrom. Hence, they are endeavoring to secure competition more successfully with their now more fortunate neighbors.

For several days a quiet canvass has been in progress among the merchants on North Main street to secure from them an expression of opinion as to the necessity for the work. If the merchants are a unit in favoring the improvement, the property-owners from whom the merchants rent their places of business will probably not object to the plan.

The cost of the work is an important consideration, and the comparatively low bid of a company which has placed the new surface on Main and Spring streets, and the consequent low price of the work, has secured for the new plan support that it would not have received otherwise.

Estimates of cost have been carefully made, and at the same rate per foot as that paid for the street farther south, the total cost has been found to be not so great as was expected. The Long Beach Electrical Company will soon begin the work of laying new tracks north of Temple street to Macy, similar to that which has been placed between Temple and Spring streets. It is the intention of the company to fill the space between the rails, and for two feet on each side of the tracks, with a concrete curb, the portion of the street, the resurfacing of which the property-owners would have to pay for, will not consist of the whole width of the thoroughfare.

Among those who are interested in the proposed improvement is H. W. Helms, a prominent citizen, who is securing the support of a number of other influential men in the proposition. If it is found that a sufficient number of citizens are interested, a petition will be presented before the City Council at an early date asking that the work be ordered at once.

The first step to be taken is the consent of the owners of a majority of the property frontage on that street, but if this is not secured, it is expected that the board is empowered and allowed to take its regular course. If it is protested successfully in the City Council, that of course will settle the matter.

BETTER FIRE PROTECTION.

Fifty New Fire-alarm Boxes to Be Placed in Service.

In addition to the establishment of a number of new fire-alarm boxes, as a result of the sale of the fire department bonds, another improvement is to be made in the fire department, which is almost as important as that of having more fire apparatus. With a fire-alarm house in every precinct, unless there is a sufficient number of fire-alarm boxes, the fire service of the city would be badly crippled, and, realizing this, the board will use a portion of the money to be secured from the bonds in placing as many fire-alarm boxes throughout the city as are needed. The first step will be to place fifty boxes, with the number already in use, will afford ample means for notifying the department of a fire in almost any portion of the city. The board has been considering this matter for several days, and it is included in the provisions for the bonds. The boxes will be purchased, if possible, they will be placed in service long before the new engine-houses are erected and equipped.

In the distribution of these boxes particular attention will be paid to the protection of the annexed section of the city, which is practically without fire-alarm boxes. The first new boxes will be placed there, and they will be in numbers sufficient to protect the city from fire. The board has been considering this matter for several days, and it is included in the provisions for the bonds. The boxes will be purchased, if possible, they will be placed in service long before the new engine-houses are erected and equipped.

A DEAD CITY.

ADMINISTRATION OF THE AFFAIRS OF A DISINCORPORATED CITY.

The Long Beach Electrical Company contends that the Board of Supervisors' Action is not Final to the Creditors.

Reference has heretofore been made to an entanglement resulting from the disincorporation of the city of Long Beach, in which the Long Beach and San Pedro Electrical Companies are involved.

Of course when Long Beach disincorporated the assets and liabilities of the city reverted to the Board of Supervisors, but there appears to be some difference of opinion as to the legal status of the assets and liabilities of the city.

The question has been raised in the Federal courts, conceding that the assets and liabilities of the city are in the hands of the Board of Supervisors, the question is whether the Board of Supervisors is a body of trustees or a body of officers.

The Long Beach Electrical Company contends that the Board of Supervisors' Action is not Final to the Creditors.

ALL ALONG THE LINE.

The reports from San Luis Obispo county show that Mr. Waters is making hay in plenty in what Bus. Op. Barlow has thought was his exclusive meadow.

The fusionists at Parris experimented with a new method of running a convention by making it a free-for-all, with no handicaps on anyone who wanted to enter no matter what his politics. They are not likely to try it again.

Pasadena has begged her first tramp for the season. It is time for the towns of Southern California to be getting their stone piles in readiness. There is nothing like a conspicuous stone heap to make tramps go somewhere else.

The war with Spain has not been without its benefits. The proprietors of the eucalyptus-oil plant at Garden Grove, Orange county, who have just resumed operations, expect an unusually large demand for their product during the coming season because of the cessation of its importation from Spain.

J. A. Allison returned a few days ago to San Diego from a trip of 500 miles through Lower California. He reports that the new progressive policy of the Lower California Development Company is beginning to have a favorable effect and he predicts a large increase of trade for San Diego if the coming winter brings sufficient rain to make the soil productive.

Whether intentionally, accidentally or providentially, there are just now about as many religious meetings being held in Southern California as political conventions. At the conferences of two kinds of Methodists and meetings of Baptist associations and of presbyteries, as well as minor religious gatherings, there is reason to hope that the evil effects of the fusion gatherings will be mitigated, if not entirely neutralized.

The "Los Angeles City and County" pamphlet, now in the hands of the publishers, gives evidence, in the matter already given to the newspapers, of being admirably adapted to the purpose for which it is issued. It was high time for the publication of something up to date, and which should set forth the conditions and prospects at present existing. There is probably no city in the country in which such rapid changes have been made, and in which such assurances of prosperity have developed within the past few years as in Los Angeles.

Takes It Out in Tinware.
William Williams, a hay and feed dealer at No. 917 East First street, was defendant before Justice Morrison yesterday in a search-warrant suit instituted by T. J. McMahon. The latter has been living in Williams's home, and had a quantity of tinware valued at \$150 stored there. Williams had told McMahon that he had befriended McMahon, who he says, is financially indebted to him. A few days ago McMahon left for San Diego, and Williams, thinking he had gone for good, appropriated the tinware. McMahon took the tinware to court, and the court said he could take such of the tinware to cover McMahon's indebtedness to him.

Butler's Trial Postponed.
The case of Tom Butler, arrested day before yesterday at the German-American Savings Bank by Officer Neighbors, and charged with being drunk, did not come to trial before Justice Owens yesterday as anticipated. His parents appeared before the court and asked that the case be postponed as their son was too sick to appear. A doctor's certificate to this effect was presented. While a prisoner in City Jail, Butler had delirium tremens, and yesterday morning he was taken to his parents' home. He will be tried tomorrow morning at 10 o'clock.

The drawing for Sunday's coursing at Agricultural Park, which took place last evening at No. 143 South Broadway, resulted as follows:
Rosewood vs. Stape Muntion, Silver Thorn vs. Home Rue, Beau Brummell vs. Stella, Orpheum Prince vs. Dago, New Home II vs. Lady Wallace, Kitty Scott vs. Crow Dog, Orpheum Lass vs. Credit, Uncle Sam vs. Sir Jasper, Matinee vs. Belle, Grand vs. Queen, Reliance vs. Fleetwood, Lady Agnes vs. Doncaster, Innocent Daisy vs. Bum, Libertine vs. Sage, A. R. C. vs. Fortia, Maloch vs. Amorita.

POLITICAL OUTLOOK.

GEN. W. H. L. BARNES DISCUSSES THE REPUBLICAN CAMPAIGN.

Maguire's Shillelah Works on a Political Plan.—The Truth of the Trading-Stamp Candidate's Assertion That Barnes is an Inciter of Riot.

Gen. W. H. L. Barnes, the distinguished orator and lawyer, who has been accompanying Henry T. Gage on a campaign trip through Southern California, reached Los Angeles, in company with Mr. Gage, yesterday morning and today will go to San Francisco. After resting for a few days Gen. Barnes will start out on another trip to address Republican audiences in the central and northern parts of the State.

For twenty years not a State nor Presidential campaign has gone on that Gen. Barnes has not yielded to the solicitations of the State Central Committee and gone forth to deliver a series of addresses on the questions of the day. In all those years he has received no compensation whatever for his labors for the Republican party, not even to the extent of having his expenses paid, nor has he ever held any public office.

"In twenty years' experience in political campaigns," said Gen. Barnes yesterday, "I have never seen so much interest and enthusiasm as have been manifested all over the State this year. We have held wonderful meetings in Southern California. Everywhere hundreds of people have been turned away from the door."

"At San Diego we addressed an audience of fully 8000 people. The exercises were held on the plaza under the open sky. A fog blew in and it began to drizzle. I wanted to stop, but the people cried: 'Go on! Go on!' There were ladies present in light dresses; the crowd was not prepared for such weather, but the audience stayed to a man. In all my life I have never seen another such sight."

"In his recent addresses Mr. Maguire seems to have singled me out for personal attack. He says comparatively little about Gage; he is continually talking about Barnes. I don't know what the reason is, unless he is displeased with the support I have given Mr. Gage, but at every opportunity, whack! goes Maguire's shillelah. He has accused me of making inflammatory speeches. In his recent address in Los Angeles Maguire says that as an officer of the National Guard he was on duty maintaining order and protecting lives and property in San Francisco during the Kearney troubles. He forgot to say that at the time of the Kearney disturbances I was major-general of the State militia and Maguire went where I sent him."

"He has made a more direct charge, that in 1875 I delivered inflammatory speeches to urge a mob to attack the offices of the Call and the Bulletin. The charge is entirely untrue. On August 25, 1875, the California Bank in San Francisco closed its doors. Two days later the president, W. C. Johnston, was elected governor of the State. The Bulletin and the Call printed sensational articles attacking the dead man's reputation. I was at the time the attorney in behalf of those papers and it was against my advice that they took the stand they did."

"A great public meeting was called in Union Hall to adopt resolutions of respect for the dead man. Several speakers, among them myself, discussed Mr. Johnston's career and eulogized his memory. Nothing whatever was said of an inflammatory character. The entire atmosphere was one of sorrow and respect for the dead, with nothing of anger or disorder. There was no outbreak or disturbance, either then or thereafter."

"Maguire has tried to make silver an issue. The State cannot coin money, and the silver question is an issue only in a national campaign. The State could not afford for a million dollars to have Maguire Governor. The man who sits in the Governor's chair speaks with authority. His words are more than the words of a private citizen. Maguire could not keep his Populist vagaries, single tax, the referendum and initiative and such matters to himself; they would soon be put in his messages."

"To say I am a Southern Pacific tool because I take law business from that company is as absurd as to say that I am working for Maguire because I am the attorney of the San Francisco Examiner. I am now defending seven libel suits for that company. I have never once talked politics with Mr. Hearnes. In fact, I seldom meet him more than three times a year. My relations with the railroad have been purely those of business, not of politics. I have never in my life held public office. If I should be elected Senator from California it would be not by my own efforts. I have asked no man for his vote, and I shall not be in Sacramento during the Senatorial fight."

A Chip of the Old Block.
William Garrity, son of Fighting Pat Garrity, appears to be a true chip of the old block. Pat Garrity has been the Police Court time in innumerable for drunkenness and fighting. Yesterday son William took the old man's place in the dock. He was found guilty of battery in that he brutally assaulted and beat an old Frenchman. Sentence will be pronounced today.

A Policeman's Birthday.
Mounted Police Officer George E. Loomis kept open house at his home on East Washington street last night, because he was celebrating his forty-third birthday. Capt. Roberts and other members of the force were among the guests. Loomis never allows his birthday to slip by without celebrating in a befitting manner.

Conducted a Lottery.
Ah Ching and Sue On were found guilty of conducting a Chinese lottery, by Justice Morrison yesterday. There was the usual amount of Chinese swearing to establish the innocence of the defendants, but the testimony of the officers who made the arrest received by the court with more credence. Ching and On will be sentenced today.

Williams Ready for Duty.
Police Officer George Williams, who has been absent on sick leave for several months, has reported ready for duty, and expects to be assigned to a beat October 1. Mr. Williams has suffered much from appendicitis and other ailments, but is rapidly getting back into his former good physical condition.

Thousands of sufferers from chronic stomach and bowel troubles have testified that their recovery dates from the time they were induced to try Ripans Tablets through reading just such an advertisement as you are reading now. A case in point is that of a young lady of Hillsboro Bridge, N. H., who writes as follows:

I am twenty-five years of age and was long troubled with faint and dizzy attacks, I doctored with different physicians, but they gave me no relief. Was just about ready to give up all hope when I saw Ripans Tablets advertised in a Boston paper. I purchased a box, and before I had used them a week, I found great relief. I can freely allow myself to be without the Tablets.

A new style product containing THE RIPANS TABLETS in a paper carton (withouthighs) is now for sale at seven cents per box. This low priced unit is intended for the poor and the economical. One dozen of the Ripans Tablets (12 tablets) can be had by mail by sending forty-eight cents to the RIPANS TABLETS COMPANY, No. 10 Spring Street, New York—of a single carton (THE TABLETS) will be sent for five cents.

Our New Process OF FLEXIBLE DENTAL PLATES is a yet but little understood by the public and less understood by dentists in general. It has many advantages over the ordinary rubber plate—even gold plates—being lighter and thinner. This plate being flexible—only a trifle thicker than heavy writing paper—is closer to the mouth, will last longer and is tougher than any other rubber. Brought to the notice of the public through Dr. Schiffman only.

Fraternal Miscellany. DRIVING OCTOBER there will be quite a beirga of fraternal people from this city, called away by the Grand Lodge, F. and A. Masons, and the Grand Chapter of the Eastern Star at San Francisco and the High Court, Independent Order of Foresters, at San Barbara, as well as the triennial convocation Knights Templars at Pittsburgh, all during the week of October 10; the Grand Encampment, Patriarchs Militant at San José the week of the 18th. A number from this city will also attend the anniversary picnic of the Fraternal Aid Association at Orange on the 14th.

It is probable that an effort will be made by the numerous fraternal beneficiary orders in Los Angeles and California to have the 1898 session of the National Fraternal Congress held in this city. The session this year convenes in Baltimore November 15.

Thick Loney's Mistake. Office Shanahan, the new special policeman who is doing secret work for the department, found an easy victim yesterday. Thick Loney, a celestial who is thick in name and head only, had the temerity to call at Shanahan's house for the purpose of selling him a lottery ticket. Shanahan bought one, then arrested the Chinaman. Loney pleaded guilty when arraigned in the Police Court and will come up again this afternoon for sentence.

FAVORABLE OUTLOOK FOR REAL ESTATE BUSINESS.

Encouraging Reports of Real Estate Markets in New York and Chicago.

A BROADWAY CORNER SOLD.

ANOTHER FINE RESIDENCE FOR THE WEST END.

Complications arising from the forfeiture of lands by the Southern Pacific Company in many buildings planned.

The local real estate market continues to be devoid of notable features. There is a fair demand for good property, but transactions of importance are few and far between. THE COMING SEASON.

Agents are beginning to speculate on the outlook for the coming winter's business. There is a general reason to anticipate that the winter will be a good one. Much of the season depends upon the rainfall, but the indications, so far, are good for a wet season, and it is too early to borrow trouble on that account. With an average amount of rain, to insure good crops, together with the railroad, harbor and other improvements that are now under way, or being planned, we may expect to see a marking up of values all along the line.

A BROADWAY CORNER.

M. Morrison has sold to John R. Vogel, a lot on the west side of Broadway, fifty feet north of Tenth street. The lot is 50 by 150 feet, on Alvarado street, just south of Ninth street, on the west side. Mr. Vogel will put up a fine residence on the lot, and the price paid was \$70,000, or \$14 a front foot, at which price it is certainly a bargain. The value of the improvements are nominal. Mr. Vogel already owns the corner of Broadway and Tenth, and this purchase gives him a fine piece of property, 50 by 150 feet in size. He may build an addition to the Devon Inn on this lot. The sale was made through Lee A. McConnell.

Mr. Vogel seems to be making a specialty of good business corners. He now owns 110 feet on the corner of Seventh and Broadway, the corner above described, at Tenth and Broadway and 100 feet at the corner of Temple and Broadway.

WEST-END SALE.

A sale was recently made, by S. A. Randall, of a lot 50 by 150 feet, on Alvarado street, just south of Ninth street, on the west side. Mr. Vogel will put up a fine residence on the lot, and the price paid was \$70,000, or \$14 a front foot, at which price it is certainly a bargain. The value of the improvements are nominal. Mr. Vogel already owns the corner of Broadway and Tenth, and this purchase gives him a fine piece of property, 50 by 150 feet in size. He may build an addition to the Devon Inn on this lot. The sale was made through Lee A. McConnell.

THE NEW YORK MARKET.

Following is an extract from an article in the New York Commercial Advertiser of September 19, on the real estate market in New York.

"Upon the actual results achieved in the real estate market this week it is impossible to find any national theory regarding its future development, yet all the things that have happened which bear perceptibly on the market have been favorable. Notwithstanding a further increase of \$1,000,000 in the circulation of the money in the treasury the money corner has been broken and interest rates have eased off again.

"What has happened is not so much because of any increase in the volume of current and loanable funds, because the contrary is the fact, and some of the banks have had to allow their reserves to be depleted. The limit has been put to it to make them up; the easier condition in the money market has resulted from a nearer view of the origin of the commercial situation and the effect of that view upon the trust companies, large holders of cheap money at all times.

"Everything in the money market situation points to a further substantial increase in our credit balance in the European markets in the near future. During the last week the credit balance has increased over \$72,000,000, and only a report to stringent measures in the European money markets has prevented the shipment of large sums in gold to the United States.

"The inference which the money market has apparently drawn from the present situation is that it is a time and for a considerable period thereafter, we will have a relatively low rate of interest and an abundant supply of currency, a situation much to be desired by the real estate interests of the country. The movement is at least in this direction, but it is yet in its infancy, and no one can tell at present whether it will ever attain sufficient momentum to appreciably help real estate values.

"Too much depends upon external conditions such as the foreign crop conditions and the premium that some of the European States will be willing to pay for gold. But, for the present moment, the financial skies are clearing, and there is promise of continued fair weather."

REAL ESTATE AT CHICAGO.

The Chicago Inter Ocean, of September 18, had the following in regard to real estate in that city:

"While there has been no actual transaction in real property of any kind last week that could be understood as indicating a tendency in any particular direction, a check of the market shows that the fall is generally reported throughout the business district. It has not reached all, there is no doubt, but one firm of brokers that has a large business says that at no time in five years preceding did it have so many matters to look after, in which there seemed to be fair indications that buyer and seller were able to do business together. Others were not so sanguine about the situation, but reported inquiries for the investment class of properties to be on the increase from people who had available money waiting for something to tempt them. A man who probably is as familiar with affairs of the downtown district as any one in Chicago, says that he looks for the real estate business of the next two years to be in new front buildings, built under contract for long-time occupancy. In his opinion the speculator will have less of a chance than heretofore on properties of the first class in the business district. That opinion is based on

To the Public.

Not in the history of this business have we ever opened the fall season with so vast and comprehensive a stock of shoes as we show today—shoes that are absolutely correct in every detail of quality, style, fit and nicety of finish—shoes that are made in the best factories in all the world—guaranteed to be reliable and satisfactory in every particular. Shoes falling short of this standard can find no place here. In addition to our own new goods the trade tide has thrown the Gibson and Backstrand stocks on our store, shoes at prices approximating 60c on the dollar, making altogether a sale of vital importance to the public and to which the public is invited. Very respectfully L. W. GODIN.

ORCHARD, FARM, RANCHO AND STOCKYARD.

the fact that what have been some of the weaker properties, new and expensive offices, buildings, that have been heavily incumbered in first hands, in order to cover the cost of construction, have ceased their oscillations and have become solid investments. They are now in strong hands that are clearing up the indebtedness with the determination to hold such properties as they become available. Furthermore, there is inquiry reported from several leading firms for good buildings for jobbing or manufacturing purposes. The applicants desire in particular instances to get out of the old firetrap-structures into more commodious and fireproof buildings for long time occupancy. The cost of such buildings is lower than it ever was before, and it appears likely that a few new buildings of six or eight stories and fireproof will be added to the jobbing district before spring. There are several such deals on, but no one is yet near enough closing to be announced by the parties interested. With an enterprise belief that such transactions may be carried through this fall is the fact that several mercantile houses stand ready to move at once into suitable new quarters. A number of feet an expansion of their own work, which the closing of the war has rendered desirable.

"The sale of small residence property in the northwest and southwest parts of town, beyond the four-mile limit, say that the sale of lots for small houses is steady and increasing. There has not been any great money in that class of business, but it all helps to build up a town, and the man who owned a prairie or a swamp two years ago is now realizing a reasonable return for his investment. Transactions in first-class residence property have been active and have been going on for some time, but the market has been mostly to trades, but the past two weeks have brought out an increased number of inquiries from people who are looking for a permanent investment in that class of holdings."

SOUTHERN PACIFIC LANDS.

There is, as might have been expected, some complication over the Southern Pacific lands in this section, which have recently been declared vacant by the government. A number of suits have already been brought in the Superior Court to recover money paid for lands which the company has been long to the railroad company. The suits are based on a paragraph in the contract reading as follows:

"It is further agreed between the parties hereto, that the party of the first part claims all the tracts hereinbefore described, as part of a grant of land to the Southern Pacific Company, United States; that patent has not yet issued to the said tracts; that it will use ordinary diligence to procure patent for them; that as in consequence of circumstances beyond its control it sometimes fails to be a portion of its said grant; therefore, nothing shall be finally determined, until the party of the first part shall have secured a guarantee or assurance that patent or title will be procured; that in case it is finally determined, that patent shall not issue to said party of the first part for all or any of the tracts herein described, it will, upon demand, refund to the party of the second part the sum of money that may have been paid to it on account of any such tracts as it shall fail to procure patent for."

BROADWAY OFFICES.

Buildings improvements on the west side of Broadway, between First and Temple, have attracted some of the real estate fraternity back to that convenient block. Lee A. McConnell is occupying a fine office on the ground floor, in the Frost building, at the corner of Second street. Ibbotson & Baldwin have moved from No. 159 Broadway, which has been leased for a saloon and restaurant.

The firm now occupies offices on the ground floor of No. 115 South Broadway.

BUILDING.

The Builder and Contractor notes the following uncontracted new work:

Plans have been prepared for G. Eshman for alterations to his residence on Figueroa street, near Twenty-first street.

Dr. T. J. Barredo is having plans drawn for a two-story building, containing eight flats of four rooms each, to be erected on the northwest corner of Eighth street and Maple avenue.

Mrs. Mary Harwood is about to erect a story-and-a-half nine-room residence on the south side of West Twentieth street, between Main and Grand avenue.

Plans have been prepared for Mrs. Pearl M. Cunningham for a five-room cottage to be erected on the south side of East Twenty-first street, near San Pedro street.

Plans have been prepared for a two-story frame residence to be built on Eleventh street, for Mrs. E. O. Moore.

Plans have been drawn for A. W. Paine for a two-story, eight-room residence to be erected on West Twenty-first street.

Plans have been prepared for Miss Agnes Helmgartner for a two-story, eight-room residence to be erected on the east side of Bonafide avenue near Twenty-first street.

Joseph Moserley is about to erect, on Burlington avenue between Ninth and Tenth streets, a two-story residence. The first-story walls will be of brick and stone; the upper story of frame.

Plans have been prepared for a two-story frame pathological laboratory to be built in the rear of the medical college on Buena Vista street, on the first floor.

The following permits at \$2000 and over were issued by the City Superintendent of Buildings:

James Mole, excavate and put in basement under building at No. 124 North Spring street, \$2750.

John Wadsworth, two-story frame eight-room residence, West Thirty-sixth street between Vermont and McClellan, \$2000.

John Wadsworth, two-story frame eight-room residence, West Twenty-first street, near Hoover, \$2000.

Ben Powers, two-story frame eight-room residence, Second street, near Fourteenth, \$3000.

Mrs. E. O. Moore, two-story frame residence, West side of Westlake avenue, between Tenth and Eleventh.

CARPET-WEAVERS' THROW-OUT.

PHILADELPHIA, Sept. 26.—Nearly 3000 carpet-weavers have been thrown out of employment in this city because of the action of the ingrain carpet-throw-spinners, who decided a few days ago to shut down this branch of their business. For some time the spinners have been turning out yarn about as fast as they could, but they have consumed it, and this forced the price down to such an extent that it was deemed advisable to close down for a time.

GENERAL AGRICULTURE.

ACCORDING to the experiment station of North Dakota, twenty years ago wheat growing has taken out from 40 to 60 per cent. of the organic matter in the soil. Many of the soils which contained originally 8000 to 10,000 pounds of nitrogen per acre, to the depth of one foot, now contain only 3000 to 6000. This loss of humus and fertility has caused the soils to become less retentive of moisture, and consequently they are more seriously affected by drought. The burning of wheat stubble and bare fallowing are responsible for a great part of this loss. To keep up the supply of humus in the soil, the station is growing a green manure crop occasionally.

Crops and Markets.

THE weather during the past week has been mild, with cloudy mornings. The rain, which was more or less general in the northern and central part of the State, was here confined to a few limited sections. Reports to the local weather bureau state that the rain fell mostly in light showers, which, so far as ascertained, caused no damage to drying fruit, as ample warning was given of the approaching storm. The flow of water in springs and streams in some localities has increased, and irrigation continues to the full extent of the water supply.

Land in the vicinity of Orange is being prepared for vegetables and fodder. Late peaches are being dried, but the fruit is smaller than usual, owing to the dryness of the soil. The bean harvest is nearly completed in some sections of Ventura county. The walnut harvest has fairly begun in Orange county. Raisin making continues, and owing to favorable conditions which have prevailed in some of the southern sections, drying will be finished in about three weeks.

Much attention is being paid just now to the lemon market. On this subject F. B. Merriam of Chicago, San Diego county, has the following communication in the San Diego Union:

"Could the citrus growers of this county have access to the market of the confidential letters and reports of its agents, it would reveal to them conditions now little understood, perhaps not even conjectured, which would plainly disclose many of the causes for the small profits, or no profits, produced by the industry. The trouble is not overproduction—this stage has not yet been reached—there is a market for all we are now producing, and at fair prices, provided it is properly distributed and handled. There is no middle ground, no dodging the issue. The nature of the industry is such that it cannot regulate or right itself, nor will it tolerate slovenly, hesitating or haphazard methods, either in production or marketing. Proper conditions must be maintained in each stage of its growth, or there is a failure of the crop, and when matured and ready for consumption it must be consumed immediately, or it becomes a total loss. These conditions are peculiar to the fresh fruit trade, hence methods successful with products perishable in character, and which are sold at once, cannot be applied to this industry. It is to be blindly court loss and ruin."

"Two cars of fruit cannot be successfully disposed of at the same time in a one-car market, and whenever attempted results not only in crushing loss to the producer (for he is the Jones who always pays the freight), but in the depreciation of the total loss. These are other one-car market, who would gradually have taken the extra car at a fair price."

"The failure to recognize this simple proposition, and the attempt to force an excess of fruit into the channels of distribution, is the cause of the market constantly developing, in one market or another, and all over the country thus continually 'bearing' the market which would otherwise be buoyant and strong. It is this which is constantly calling forth the reports referred to above, a sample or two of which I will give you. One agent writes us under date of August 17:

"I was here from California today with whom I am well acquainted. He is undoubtedly trying to make a record for himself. Said he could deliver from one to fifty carloads of Valencia in the next fifteen days, on a basis of \$1.50 per box, point of delivery in the East. He also offered lemons on a basis of \$3.25 to \$3.75, stating that he could furnish the very finest put up in California."

"This was a California broker who buys fruit here on the f.o.b. spot-cash system. These prices were from 25 cents to \$1 per box less than the exchange was getting."

"Another report of the date of September 10 says:

"It has been very hard for me to place oranges in this market during the past month, inasmuch as they have been cutting prices so much below what you are selling for that it was impossible for me to get it. They have been getting tramp cars of both Valencia and sweet that I have been practically sold, and the parties buying the fruit jockeying it out to the commission men in twenty-five and fifty-box lots at a drop of 60 to 75 cents a box of it selling at \$2.15. Some fruit that was a little inferior, selling for less money. Most of the fruit was nice, and did not show any decay. I know the prices you people were getting throughout the country, and could only get in an occasional car."

"Another sends a card dated August 26, issued to the trade in his district by a fruit firm in his city:

"To jobbers only: We have a couple of cars of lemons fancy, due tomorrow, mostly 360s, which we quote you at \$1.40 per box. If in the market for lemons, as us from you with an order of fifteen or twenty boxes."

"At this very time the exchange was getting from \$5.25 to \$5.50 for fancy lemons."

"Just about this time a car or two of consigned lemons were run into another market, which immediately caused a drop of 10 to 15 cents a box in that market. The exchange had two cars en route to that point at that time and both were diverted to another market and sold at full prices, and as soon as the consigned fruit was out of the way, our agent began placing lemons at 50 cents advance above the price before declined."

"Another agent writes under date of September 8:

"The difficulty is that nearly every week there is a car of lemons here on consignment, or else poor and rejected, which keeps the market down. Remembered a car yesterday that was shipped from San Diego; an unbroken lot, which the shipper was, but there are a number of different packs in the car, and I think it must have been shipped by some broker. The stock is not strictly fancy, and is poorly packed, but doubtless somebody will get it at a low price, and they will be selling for much less money than I am asking."

"Notwithstanding this rejected car, this same agent only a few days later sold a car of 238 boxes, half fancy and half choice, for a little over \$1850 net. He could go on almost indefinitely with similar quotations. Such reports are coming in all the time, and from all quarters, but the above will suffice to show the effect of the indiscriminate and unorganized marketing."

there is no money in raising deciduous fruits in Southern California may profitably rest the following, from the Redlands Citigraph:

"Albert E. Cole has a trifle less than five acres in pears on his place west of the city. His crop this year is estimated at 75 tons. Of this he sold 45 tons to the Redlands Preserving Company; he retained to his own customers 10 tons; he dried 10 tons, and lost by one of the early heated spells and its accompanying high wind, 12 tons."

"The prices received from retail customers varied from \$25 to \$50 per ton, according to variety and quality. The dried fruit sold at an average of 7 cents. The price paid by the cannery for other words, he will receive the full price according to the grades and superior quality of his crop, the grower will be credited in the sales, making it evident that his returns will be greater according to the superiority of his goods. For his four, five and six crown loose, the grower will receive the ruling price for these grades. If the association fails in all else, but London layers, his two, three and four crown loose, the grower will receive the ruling price for these grades. He will receive the distillery price for his raisins, and the price for his apples will be accordingly. If the fruit has to be sent to the distillery owing to its low grade or damaged condition, he will receive the distillery price. If the association fails in all else, but London layers, his two, three and four crown loose, the grower will receive the ruling price for these grades. He will receive the distillery price for his raisins, and the price for his apples will be accordingly. BOLTERS OUTBOULDED.

Democratic Democrats Meet to Organize and Split Again.

[A. P. EARLY MORNING REPORT.] SYRACUSE (N. Y.), Sept. 29.—The delegates of the Chicago Platform Democracy, at a meeting held at the City Hall last night to organize a bolt of the regular Democratic ticket, should the platform of 1896 be ignored, was split nearly even by a bolt among its own members. Dissatisfied by a ruling of Chairman Henry M. McDonald of New York, half or nearly half of the delegates, followed the lead of Calvin T. Sweeney, of Albany, and quit the hall, after a meeting at which disorder prevailed to an extent that the presiding officer was powerless to control it, and motions and counter-motions were lost in a maze of parliamentary entanglements.

There were 134 delegates at the calling of the conference, out of the 150 entitled to seats upon the basis of three to each Senatorial district. Resolutions were introduced providing that in the event of the Democratic State Convention ignoring the delegation of the Chicago platform, the Committee on Organization, consisting of members from each Senatorial district, meet within eighteen hours and select candidates for all places on the State ticket, and procure signatures to place such candidates in nomination. The resolutions led to much bad feeling, and finally, on the chair declaring a motion to table the resolutions lost, Mr. Keck and his followers took umbrage and bolted the conference, and those who remained adopted the resolution.

CANADA ELECTIONS.

All Provinces Given Opportunity to Vote for Prohibition.

[A. P. EARLY MORNING REPORT.] QUEBEC, Sept. 29.—One of the most interesting elections ever held in Canada will take place today. In all the provinces of Canada, the people will be given the opportunity to express themselves for or against the absolute prohibition of the sale, manufacture, importation and use of any and all kinds of intoxicants in Canada. The Liberal government now in power has given to the people as to what course will be followed in case the people vote for prohibition.

Ontario was the last province to vote on the prohibition. The plebiscite was taken on June 19, 1894, when 192,497 votes for and 110,737 against, making a total of 303,234 or 46.65 per cent. of the registered vote of the following year (1895.) In the polled vote 29.61 per cent. of the registered vote was for prohibition and 70.39 per cent. against. At the general election of 1891, the total registered vote in the province of Ontario, Nova Scotia, Manitoba and Prince Edward Island was 729,578, and the vote was 63.90 per cent. of the registered vote, with 42.65 per cent. of the registered vote polled at the different plebiscites. It does not appear, therefore, that the vote on the prohibition question has been as light as is generally stated, it being 16.61 per cent. below the vote of 1891, after one of the hottest political campaigns ever known in Canada.

GOV. SMITH WORSE.

TWO BULLETS HAVE NOT YET BEEN LOCATED.

Little Excitement Apparent at the Home at First, but the Reaction Culminated in a Mass Meeting.

Seething Resolutions Adopted by the Veterans.

After the dastardly attack made by A. G. Bradley upon Gov. Smith at the Soldiers' Home on Wednesday last, the veterans at the home wandered about in an apparently dazed condition. They were shocked and astounded at the outrage, but had sufficiently recovered yesterday to take collective action in the premises, and at 3 o'clock a mass meeting was held. At that hour the assembly hall was packed to its utmost capacity, and Capt. S. B. McCall was elected chairman and J. Howard Young, secretary.

Capt. A. B. Godden addressed the meeting, and was followed by Gen. F. M. Clarke and several other speakers. The audience was in a state of subdued excitement, and whenever one of the speakers in alluding to the attempted assassination of Gov. Smith, denounced the man who played so cowardly a part a deafening roar of applause proclaimed the feeling that dominated the old soldiers gathered in the hall.

A Committee on Resolutions had been appointed, and reported the following: "Whereas yesterday a member of the Pacific branch, National Soldiers' Home, made a cowardly attempt to murder Gov. Andrew J. Smith by shooting him in the back, which act having shocked the moral sense of the entire membership of the home; therefore,

"Resolved, that we hereby express to the country our horror and indignation at this heinous attempt to murder our fellow citizen, and in the most emphatic terms reprobate such method of righting either real or fancied wrongs, if any such exist, while we appeal to the just sentiment of the good citizens of our country to relieve us of any suspicion of sympathy with such methods, as being inconsistent with the known characteristics of the American soldier."

"Resolved, that we extend our heartfelt sympathy to Col. Smith's family."

"A. B. GODDEN."

"F. M. CLARKE."

Upon being put to the meeting the resolutions were carried by acclamation, and then the meeting was adjourned. About the grounds, however, the old soldiers gathered in groups to discuss the all-absorbing subject, and await bulletins regarding the condition of Gov. Smith. During the afternoon Dr. Rickey reported his condition as being somewhat improved, albeit the two bullets had not been located. As evening approached, however, the symptoms presented were of a less encouraging character, and Gov. Smith became decidedly worse. Dr. Hasse, chief surgeon of the home, was expected to arrive last night, and his arrival was anxiously awaited.

At a meeting of the general committee appointed to take charge of the formation of a uniformed marching brigade, held yesterday afternoon, the following sub-committees were chosen from among the members of the committee: Committee on Organization, Name, James M. Alexander; W. E. Leeds, G. C. de Garmo, C. M. Fairbanks, A. B. Price, E. W. Hopkins, Joseph B. Baxter, Thomas Strohm, W. R. Sargent and L. H. Schwabe; Committee on Discipline and Military Drill, C. F. Darby, J. H. Kiefer, W. E. Chapin, Oscar Hintz; Committee on Formation, C. McStay, J. Bushnell, Joseph Witte, H. C. Lichtenberger and Charles W. Chase; Committee on Finance, A. G. Bartlett, Dr. W. H. Hanson, John W. Off, Dr. W. A. Lindley, Louis Vetter, W. J. Varie and John W. Vaughn.

These committees are urgently requested to report to the general committee at 7:30 p.m. at the headquarters of the Republican Central Committee, No. 182 Hollenbeck Hotel, this evening.

On account of the limited time in which to perfect the marching organization, it is imperative that the various committees give the work immediate attention.

MARRIAGE LICENSES.
